You were like a sister to me and I loved you like one. I am so sad that you have died only a few weeks before I travel back to Germany to see you. My last memories of you on my most recent visit to Germany in 2022 are now so precious. You star will always shine brightly in my life. Miss you girl, miss you humour, miss you messages , just really miss you! My deepest condolences to Kim and Norbert, Winifred and Ulla, and of course Silke and Andreas.
